

NMT Training Methodology

Agenda

- Introduction
- Structured Syllabus
- Learn with Pictures
- Step-by-Step Walkthroughs
- Learning By Example
- Customized Training

Introduction

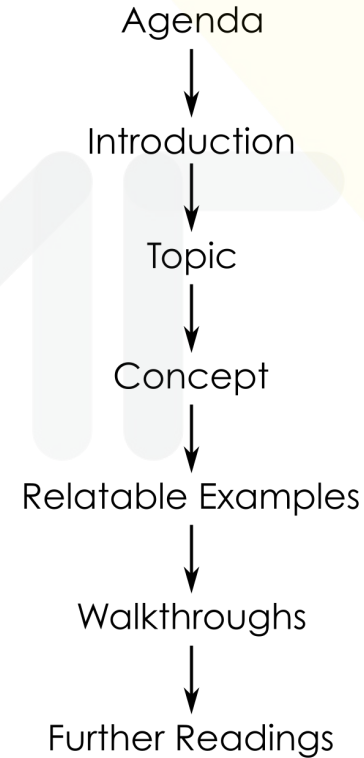

Odoo is an economical resource management tool that has the capacity to handle even the most complex of business operations. However, the learning curve is steep and detailed documentation scarce.

At NMT, we strive to provide you comprehensive training material to help you get onto the program fast and fully leverage Odoo ERP to boost your business as soon as possible.

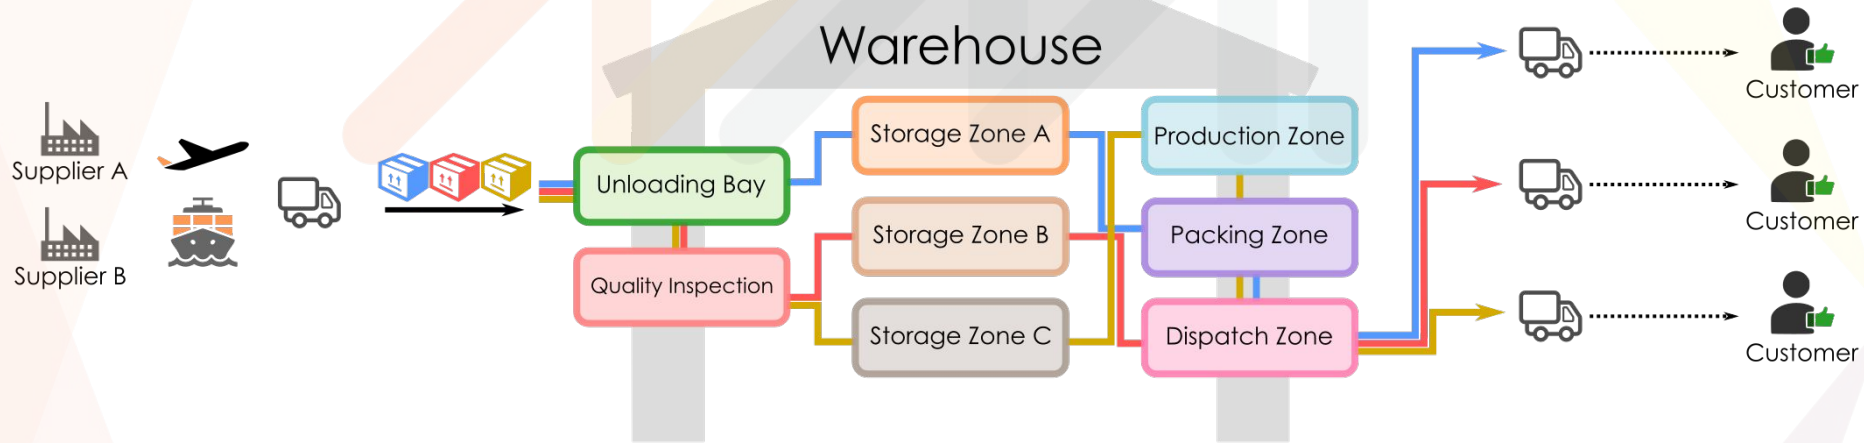

Structured Syllabus

Our material follows a standard structure that sets the pace of the material, builds relevant contexts and caters for easy reference.

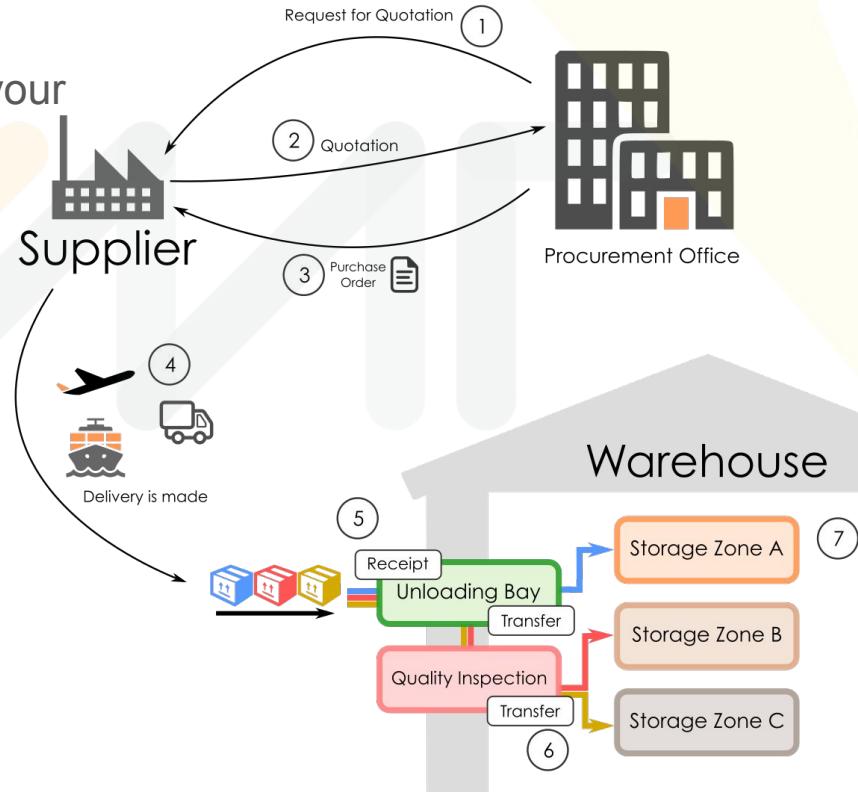

Learn with Pictures

Apart from screenshots and descriptions, we believe that learning is easier when you can picture the process in your mind. So here we are with graphical representations of the process to help you visualise the entire process.

Step-by-step Walkthroughs

Our step-by-step walkthroughs with visual references are designed to help you and your staff understand the physical and digital process of using the Odoo ERP system.

Learning by Example

Some processes are learned best with real-life examples. As such we strive to help build the context for the concept by having relatable examples to exercise the function of the ERP system.

Sample Product	
Public Price	100.00
Member	95.00
Premium Member	90.00

Customer	Price List	Remarks
Agrolait	Member	Agrolait is a company. This pricelist will be applied to all its associates.

Customized Training

We provide customized training material for specific workflows unique to your business, no matter if it's developed by us or not. What's most important is that you, and your staff, have a reliable, shareable, and easy to follow set of instructions for your team to work efficiently.
